Changing room and assembled box locker solutions for players, coaches, and employees

The new Wasserman Football Center of the University of California, Los Angeles (UCLA) gives players and coaches a modern training environment on 7,000 m² with unlimited access to the latest football equipment.

For the changing room and assembled box locker areas, individual storage space solutions were to be produced for the players, coaches, and employees that blend in harmoniously with the design concept of the Wasserman Football Center.

As a leading fitting specialist for changing room and assembled box locker solutions, C+P is able to produce individual solutions. High-quality lockers and assembled box lockers from the Prefino product series were used, adapted to suit the customer's specific needs.
