

More than just a caddy – the C + P fridge caddies

Whether in an office, workshop, or break room—anywhere flexibility, power supply, and organization are needed—C + P refrigerator carts offer a well-designed solution. Mobile, technically integrated, and robustly built, they combine storage space, power supply, and refrigeration in a single system—ideal for everyday use.

Here's what the caddies offer:

- + **Maximum mobility:** 4 maxi-casters, lockable at the front—versatile and easy to position securely
- + **Pleasantly quiet:** Double-walled steel body with structure-borne sound insulation for quiet operation
- + **Convenient drawers:** Full extension slides with precision rails, soft-stop, and self-closing
- + **Flexible organization:** Customizable interior layout for individual use
- + **Ready for immediate use:** Upper cable flap with 2 power connections (230 V), including a 3-meter supply line
- + **Built-in refrigerator:** 62-liter capacity, lockable, with 3 adjustable storage shelves

Well-thought-out organization:

Drawer with integrated cutlery compartment and stainless steel small part drawer for organized storage during use.

Flexible Use:

Drawers with adjustable dividers for cups and glasses allow for organization tailored to your needs in everyday use.

Integrated Power Supply:

All caddies feature an upper phenolic HPL cable flap and 2x power connections (230 V) for flexible use in daily operations.

Safe Storage:

Drawers for plates and saucers ensure organized and protected storage during daily use.
