

Smartphones Stored Safely

Focus on Concentration

Whether it's a school, educational institution, government office, or business: When classes, meetings, or sensitive areas are intentionally kept cell-phone-free, you need a solution that makes everyday life easier—one that's secure, organized, and clearly designated. The C + P Cell Phone Garage provides a designated spot for every smartphone—locked away, within easy reach, and tailored to the size of the group.

Your Benefits at a Glance:

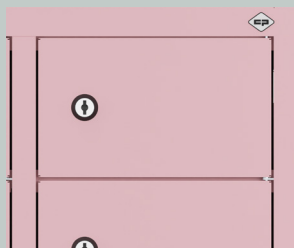

- + **Secure:** Each case locks individually
- + **Organized:** A designated spot for every smartphone
- + **Practical for everyday use:** Ideal for supporting school policies on cell phone use
- + **Flexible:** available with 8, 12, 18, 20, 30, or 36 cases
- + **Versatile:** two box heights—98 mm or 158 mm
- + **Convenient:** comes standard with a cylinder lock; can be used keyless as an option

New model
36 cases
(98 mm box height)

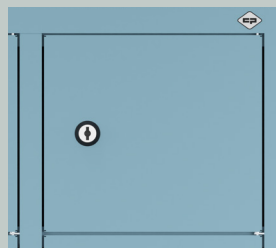

on p. 2

Two box heights for different needs

Two compartment sizes are available, depending on your needs:

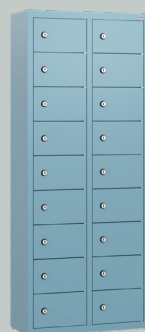

98 mm box height –
The standard for space-saving
smartphone storage.

158 mm box height –
The taller version for
more storage space in
each case.

Cell Phone Storage Unit with Customizable Number of Cases – 8 to 36 cases

8 / 12 cases

A compact solution for smaller groups, classrooms, teachers' lounges, or reception areas. Each smartphone has a designated, lockable spot.

30 cases

For larger classes, school buildings, or public facilities where a large number of smartphones need to be stored in an organized manner.

18 / 20 cases

Ideal for group rooms, meeting areas, or facilities with users who change regularly.

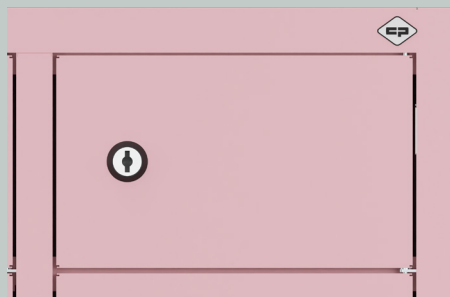

NEW

- + For larger classes, school buildings, or public facilities where many smartphones need to be stored in an organized manner.
- + The new version offers even more capacity—secure, well-organized, and exceptionally space-saving.

36 cases

The new version for even more capacity—secure, well-organized, and space-saving.

Securely locked:

Equipped with a cylinder lock as standard. Also available as a master key system with a master key upon request.

Keyless operation:

Optionally available with a mechanical combination lock or a PIN code lock—convenient for users and easier to manage.

Clear Organization:

Students or users lock their smartphones on their own and unlock them again later on their own.
